#### PENETRATION OF SUBJECT'S ACTIVITIES

With respect to MEYER LANSKY, the accessibility, productivity, and security of utilizing extraordinary investigative techniques have been discussed individually and in conferences.

It should be noted that LANSKY moved into a new home in an exclusive residential district, Golden Isles, located in Hallandale, Florida. This area consists entirely of reclaimed land and has been planned? so that canals and waterways separate each street. There is only one entrance into the entire district. LANSKY resides at 612 Hibiscus Drive, which is located on a dead end. There are three other homes at widely separated points on the street. A canal is located at the immediate rear of the LANSKY home and a large open lot is located south of the home. No homes have yet been built directly in front of his residence. As a result, his home commands a view of his entire street, the waterway in front of his house and the street beyond the waterway. There are no motels or hotels within a mile of the residence.

It is felt that the use of extraordinary investigative techniques would not be feasible at his residence.
Further, spot surveillances and contact with does not indicate any unusual degree of

activity at his residence.

LANSKY is still in somewhat of a recuperative state following his illness, and is not active. Since he has been removed from Cuban gambling advise there is no indication that he is involved in any sort of business activity, legal or illegal. However, LANSKY does spend considerable time at the Aristocrat Hotel and Diplomat Hotel, Hollywood, Florida, and at BEN GAINES' Skyway Motel, Miami, Florida. This matter will be explored further to determine if some place outside of LANSKY's residential area is susceptible to such techniques.
